

# Shore Cord Reel Option

---

2005 Neptune

The information printed here reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance. All information printed in this document is subject to change after the date of printing. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within the owner's manual and/or this document may not be accurate at the time of your purchase. Please confirm any information with your dealer.

The information in the 05 Neptune® manual on page 256 has been superseded. The following information supersedes the printed in the manual.

©Monaco Coach Corporation. All rights reserved. All other trademarks or registered trademarks are property of their respective holders. Brand name products of other companies mentioned in this addendum are not endorsed by Monaco Coach Corporation.

## PLUGGING IN THE SHORE CORD W/CORD REEL OPTION

*(This option is not available for a 34SBD floorplan)*

- Located in the roadside compartment is the shore power cord.
- Extend the cable by extending a sufficient amount of cable to reach the power supply. If 50 Amp service is not available, install the proper electrical adapter(s) to the cord.
- Always turn off the shore power breaker to the power supply before connecting or disconnecting the shore cord. This will prevent an accidental shock and flashing of electrical contacts.
- After the connection is made, turn the shore power breaker on. The transfer switch should make an audible click.
- Ensure AC In is lit on the inverter remote panel inside the motorhome.

\* Italic text denotes change.
