There are Class A diesel motorhomes and there’s the Holiday Rambler Endeavor XE. Stop dreaming about the RV lifestyle, and instead, experience motorhome bliss. The 2018 Endeavor introduces four floorplans, featuring hardwood cabinetry, residential-style seating and wall-to-wall high-gloss tile flooring in the living area. With 84” interior ceiling heights, polished solid-surface countertops and a rear wardrobe with cedar lining in the bedroom, you might even forget you’re camping.

This is living.

The Endeavor 40D is shown in Silver Strand décor with Dark Cherry cabinetry.
A Holiday Rambler icon, the Endeavor Class A diesel continues to leave its mark with three floorplans, offering hardwood cabinet face frames, doors and drawers, crown molding, and polished solid-surface countertops. The select model facing dinette is convertible for sleeping, while the galley features a residential refrigerator and deep double-bowl, stainless-steel sink. Riding on the trusted Roadmaster™ chassis, this coach is the manifestation of the full-time RV lifestyle you’ve always wanted.

This is living.

This is living.

At Holiday Rambler, your dream journey is our unwavering inspiration. Whether you’re planning a rambling weekend getaway or imagining a cross-country holiday adventure, we know that owning a motorhome is a dream lifestyle. We take that dream seriously. **We focus on the idea of home — not the place, but the feeling.** Then we make sure to turn that feeling into one of the most enviable getaways. Holiday Rambler. This is living…

---

**DISCLAIMER**

1. **GVWR (Gross Vehicle Weight Rating)** is the maximum permissible weight of this fully loaded motorhome. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity*.
2. **GAWR (Gross Axle Weight Rating)** is the maximum permissible loaded weight a specific axle is designed to carry.
3. **GCWR (gross Combined Weight Rating)** is the value specified by the motorhome manufacturer as the maximum allowable loaded weight of this motorhome with its towed vehicle. Towing and braking capacities may be different. Refer to Holiday Rambler and chassis manufacturer’s manuals for complete information.
4. Length measured from front bumper to rear bumper (excludes accessories).
5. Excludes safety equipment and awnings.
6. Motorhomes feature a body width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
7. **Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.**
8. The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.
9. **UVW and OCCC are found on the label containing the federal certification tag in each RV.**
10. **The Minimum Towable Load of this vehicle is the available weight capacity, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight capacity can be added to your Towable Load. For example, if your coach is loaded to 1000lbs less than maximum GVWR, your Towable Load increases accordingly. Do not exceed the hitch rating weight, GVWR or GCWR.**
11. **Seatbelts and locations are shown in the brochure for display purposes only. Actual numbers and locations will vary by model.**
12. **All 2017 REV Recreation Group motorhomes include a limited one-year/15,000-mile coach warranty and three-year/45,000-mile structural warranty, whichever occurs first, and is fully transferable for the first 12 months.**

Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Holiday Rambler has designed its recreational vehicles to provide a variety of uses for customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle’s capacities are not exceeded.
